

P2 Visit to Vane Farm

On 3rd May the Primary 2 classes went to the nature reserve at Vane Farm near Kinross to be explorers for the day! When we came back to school we wrote all about our adventures. 'We went pond dipping. We got two leeches and a water louse. Then we put them in a bottle which had a magnifying glass on the lid, they were a bit scary to look at!' (Charlotte). 'We put some water in the tray so the creatures would live. We found some flat worms, one water boatman and four damsel fly nymphs.' (Laura). 'We went on a nature walk and on the nature walk we got to open the first envelope from our bags. It was blue. In it was a card. My card said 'soft' so I had to put it on something soft. I found something that was soft. It was a fern.' (Olivia).
